EXAMINER'S COMMENTS

Response to Arguments

1. Applicant's arguments filed 7/23/2007 have been fully considered and are persuasive.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a vertical bag-manufacturing and packaging machine for manufacturing bags by sealing a tubular continuous packaging material filled with items and for cutting and discharging the bag at a predetermined discharge position to a conveyor, in combination with a drop orientation control unit disposed between the vertical bag-manufacturing and packaging machine and the conveyance unit and configured to feed the bag discharged from the vertical bag-manufacturing and packaging machine substantially to a predetermined position on the conveyance unit while maintaining the drop orientation of the bag even when the bag is discharged from the vertical bag-manufacturing and packaging machine at a position other than the predetermined discharge position.

The most pertinent prior art, HIRATA, discloses a packaging bag supply device that supplies packaging bags to a packaging bag discharge position one by one comprising transportation means that transports a plurality of stacked packaging bags from a mounting

Art Unit: 3721

position to the discharge position. HIRATA does not disclose a drop orientation control unit that feeds the bag and maintains its orientation even if the bag is delivered in another position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
